# Rapid Rehousing

---

Sisu Youth Services exists to ensure that youth experiencing housing instability have a safe place to sleep, the security to dream, and the support to make a positive impact on the world.

## **What is Rapid Rehousing?**

Rapid rehousing is a program that provides short-term rental assistance and services. The goals are to help people obtain housing quickly, increase self-sufficiency, and stay housed.

Sisu provides a monthly rental subsidy directly to landlords, with clients paying the remainder of the rent and utilities.

Youth are required to participate in regular case management and must work toward employment to cover their monthly expenses.
